Software Engineer

(123) 456-7890 | john.doe@email.com | linkedin.com/in/johndoe | github.com/johndoe

Professional Summary

Results-driven Software Engineer with 5+ years of experience in developing, testing, and maintaining scalable web applications. Proficient in Python, Java, and JavaScript frameworks like React and Node.js. Passionate about cloud computing, particularly with AWS, and leveraging CI/CD pipelines to improve development workflows.

Work Experience

Senior Software Engineer | Tech Solutions Inc. | San Francisco, CA | June 2021 - Present

- • Led the development of a new microservices-based e-commerce platform using Python (Django) and React, resulting in a 30% improvement in page load times.
- • Designed and implemented a CI/CD pipeline using Jenkins and Docker, reducing deployment time by 50%.
- • Mentored 3 junior engineers on best practices for coding, testing, and system design.
- • Managed cloud infrastructure on AWS, utilizing services like EC2, S3, and RDS to ensure high availability.

Software Engineer | Innovatech Corp. | Boston, MA | July 2019 - May 2021

- • Developed and maintained back-end services for a client-facing analytics dashboard using Java and Spring Boot.
- • Wrote unit and integration tests, increasing code coverage by 40%.
- • Collaborated with product managers and designers in an Agile/Scrum environment to deliver high-quality features.

Skills

- • Languages: Python, Java, JavaScript, SQL
- • Frameworks: Django, Spring Boot, React, Node.js
- • Cloud/DevOps: AWS (EC2, S3, Lambda), Docker, Jenkins, Git
- • Databases: PostgreSQL, MongoDB, Redis

- • Methodologies: Agile, Scrum, TDD

Education

Bachelor of Science in Computer Science
University of Technology, Anytown, USA | 2015 - 2019
